The Faculties, for intellectual abilities, moral worth and presonal acquirements, will compare favorably with the most distinguished in our country. The medical faculty constitutes an anomaly in this or any other country—all of them are able lecturers and the best of teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to

health, including all seasons of the year, we deny that ANY OTHER CITY HAS MORE. Stow, Nancy
